

This document is the seal information for the licensing of Geologists in accordance with the statute shown below, to procure a seal of the size and design shown above and described below.

81-3529

(3) (a) Each licensee authorized to practice geology must obtain a seal. It shall be unlawful for a licensee to affix his or her seal and signature or to permit his or her seal and signature to be affixed to any document after the expiration of the certificate of licensure or for the purpose of aiding or abetting any other person to evade or attempt to evade any provisions of the act.

(b) The seal may be a rubber stamp or may be generated electronically. Whenever the seal is applied, the licensee's written signature and the date shall be across the seal. No further words or wording are required. Electronic signatures applied to electronic seals shall be protected with an electronic revision approval system. Documents without electronic revision approval system protection that are transmitted electronically to a client or a governmental agency shall have the seal removed from the file. The electronic media shall have the following inserted in lieu of the seal, signature, and date: This document was originally issued and sealed by (name of sealer), (license number), on (date of sealing). This media should not be considered a certified document.

(c) The seal, signature, and date shall be placed on all technical submissions and calculations whenever presented to a client or any public or governmental agency.

(d) The seal, signature, and date shall be placed on all originals, copies, tracings, or other reproducible documents in such a manner that the seal, signature, and date will be reproduced. The application of the licensee's seal and signature shall constitute certification that the work was done by the licensee or under the licensee's control. In the case of multiple sealings, the first or title page shall be sealed, signed, and dated by all involved. In addition, each sheet shall be sealed, signed, and dated by the licensee responsible for each sheet. In the case of an organization, each sheet shall be sealed, signed, and dated by the licensee involved. The geologist in responsible charge shall sign, seal, and date the title or first sheet.

(e) In the case of a temporary permit issued to a licensee of another state, the licensee shall use his or her state of licensure seal and shall affix his or her signature and temporary permit to all his or her work.

(f) The design of the seal shall be determined by the board. **The following information shall be on the seal: State of Nebraska; licensee's name; licensee's license number; and the words Professional Geologist.**

81-3530 Seal and signature; use; restrictions.

(1) A professional geologist shall only use his or her seal and signature when he or she was in responsible charge of the work being stamped.

(2) A professional geologist shall use his or her seal and signature on geologic reports, documents, maps, plans, logs, and sections, or other public records offered to the public and prepared or issued by or under the direct supervision of the professional geologist.
